

Dear FCC,

I am very concerned with the legislation proposed to give LPFM stations priority over nationally broadcast stations that utilize the FM translator service.

My favorite station is K-Love (106.7 locally) as it is commercial-free and family friendly. I never have to worry about my young children listening to K-Love and hearing something they shouldn't. This station also provides me with encouragement and motivation to get through my day.

If K-Love were supplanted by an LPFM station, it would be detrimental to our local society. There would not be another family friendly Christian station to replace it and that would be a very bad thing indeed. We need less Rock and Roll, negative news and (Lord knows!) commercials on our airwaves these days and more focus on good solid morals and positive news.

I believe K-Love provides these things to our community and serves the public interest. They spread the love of our Lord, offer prayer support, provide useful local information, educate through fair and objective reporting and play some of the most positive, encouraging music available today.

Please do not allow LPFM stations to knock K-Love off the air in the Raleigh/Durham area (or anywhere else for that matter).

Best Regards,

David Nizen
